

# The Art of Technology

## Grades 3 - 6

Explore the technology in art and the art of technology through the exhibit areas listed below.

### Signals Stations

What tools did you use to edit your picture from Log-In?

---

---

### Anytime/Anywhere

In 1939, what movie used Technicolor technology?

---

Name two of the earliest video game devices.

1. \_\_\_\_\_ 2. \_\_\_\_\_

### Robots

What role does color play in your robot's activities in the zone?  
(Consider the zone challenge and how your robot reacts to other robots.)

---

---

### HDTV Production Studio

Choose one of these members of a Broadcast team and explain what they do to help put the show together: Director / Host / Field Reporter / Camera Operator / Technical Director / Field Producer

---

---

Describe the story you reported on as the host or reporter of the HDTV broadcast.  
Name other environmentally themed topics you think are important to report on?

---

---

### Animation Studio

What are some things you can adjust when you create a character or design a CG (computer generated) world (or environment)?

---

---

### Dance Motion Capture

What key parts of the body are the cameras tracking when you move in the DMC pod?

---

We hope you enjoyed your visit to Sony Wonder Technology Lab!  
Visit us again to continue exploring exciting ways to create, connect and collaborate.
